## MISSION REPORT

### GENERAL SECTION

#### **Point 1) General information on the Organization**

COOPI - COOPERAZIONE INTERNAZIONALE is a non-profit Foundation based in Milan, whose aims at fighting all forms of poverty and to accompany populations affected by wars, socio-economic crises or natural disasters towards recovery and sustainable development. This aim is essentially reached via the implementation of development programmes with Developing Countries and the selection and preparation of individuals who wish to participate on a voluntary basis in the Foundation's programmes.

As part of the Third Sector Reform, COOPI, during 2026, complied with the relevant regulatory requirements by acquiring the status, in accordance with the legislation, of a Third Sector Entity (ETS) and securing its registration under number 170764 in the Registro Unico Nazionale del Terzo Settore (RUNTS) pursuant to the executive decree of the Metropolitan City of Milan.

The Balance Sheet ending on the 31 December 2025 have been prepared in accordance with the regulations of the Third Sector and consist of the Balance Sheet, the Financial Statement and this Mission Report.

The preparation of the documents which make up the Foundation's Accounts has been carried out according to the law; in particular, the Mission Report illustrate, analyse and in some cases add information to the data contained in the Accounts.

#### **Significant events during the year:**

At the closing date of these financial statements, the Russian-Ukrainian conflict that began in February 2022 continues. In relation to this conflict, the Foundation has not had and has no direct organisational impact as it is not present in the countries affected by the conflict.

Conflict has flared up again in the Middle East as well. Among the countries involved, the Foundation currently has a presence in Lebanon and Palestine.

Business continuity is not in question.

In any case, the Foundation is able to cope with any economic imbalances thanks to the reserves in the shareholders' equity, which have been set up precisely to respond adequately to unforeseen crisis situations.

#### **Point 2) Membership Information**

At the start of the financial year, there were 58 members; during the course of the year, 2 members joined the Foundation and 2 members left, so that by 31/12/2025 there were 58 members. Members pay an annual membership fee as shown below.

|                        | <b>31/12/2024</b> | <b>31/12/2025</b> | <b>Variations</b> |
|------------------------|-------------------|-------------------|-------------------|
| <b>Membership fees</b> | 5.905             | 5.905             | 0                 |

With regard to its members, COOPI does not carry out any activities or supply goods or services.

The Foundation does not use direct funding from its members as a form of financing.

## **ILLUSTRATION OF BALANCE SHEET FIGURES**

### ***Point 3) Criteria used in the analysis of the items of the accounts, in amending values and in the conversion of values not originally expressed in local currency***

The items which make up the accounts have been analysed according to the criteria laid out in the Civil Code. All the amounts derive from the accounting entries.

The criteria used in the preparation of the accounts as at 31st December 2025 are not different from those used for the preparation of the accounts of the previous year, especially with regards to continuity and analysis of the principles.

The analysis of the items of the accounts has been carried out according to general principals of prudence and pertinence with a view to the continuation of the activity, as well as having taken into consideration the economical purpose of the assets and liabilities

By applying the prudence principal, the analysis of the individual items of the assets and liabilities has meant that no compensation has been carried out between losses, which needed to be acknowledged, and profits not to be acknowledged in that never actually made.

By applying the pertinence principal all operations and other events have been included in the accounting of the year to which they apply. With regards to costs and proceeds relating to projects which do not end their activities by the end of the accounting year, the amount spent by each project as at 31.12.2025 was taken into account for accrual purposes.

For those projects which, as at 31.12.2025, had received advance payments exceeding the expenses incurred, a deferred income was recorded for the unused amount.

For those projects that, as of 31.12.2025, had received lower advance payments than the expenses incurred, a revenue for "expenses to be reimbursed" was recorded; the related receivable was included in item C II "Credits from others" of the Assets and Liabilities.

With specific regards to the analysis, here follows the criteria used on the more important items, according to art. 2426 c.c.

## ASSETS

### B. FIXED ASSETS

#### B. I. *Intangible assets*

These have been entered at purchase price value, including all directly related costs, and have been presented net of the depreciations carried out previously and attributed to the single budget items.

Maintenance and improvement costs of assets belonging to others have been included in "Other intangible assets" and depreciated using the lower of the following: future use and rental contract. Those assets with a considerably lower economical value than the cost at the end of the accounting year, are depreciated to their economic value. If the reasons for said depreciation are no longer applicable, the cost value is reinstated.

#### B. II. *Tangible assets*

As per art. 2426 c.c. tangible assets are entered at cost value, including all directly related costs. Maintenance and repair costs have been included only where these have actually increased the value of the asset or bettered its use.

Assets with a unit cost of up to EUR 516.46 that can be put to independent use have been entered in the Financial Statement if their usefulness is limited to a single financial year.

The value of all assets in the foreign offices has been entered net of depreciations.

No revaluations have occurred.

### *Amendments*

The depreciation quotas entered in Financial Statement have been calculated according to use, destination and economical and technical duration of the goods, on the basis of residual use. The following quotas represent these criteria. This criteria was considered to be well represented by the quotas set out below.

The Quotas applied for amortization of tangible assets used in Italy, are as follows:

| <i>Goods</i>     | <i>Quota %</i> |
|------------------|----------------|
| Buildings        | 3%             |
| Plants           | 20%            |
| Equipment        | 20%            |
| Furniture        | 10%            |
| Office equipment | 20%            |

The assets in the balance sheet show the value of fixed assets adjusted by the corresponding depreciation funds.

The tangible assets have not been revaluated.

With regards to quotas applied to tangible assets in use in the foreign offices, these follow those laid out in the tables contained in COOPI's internal procedures.

### *B.III Financial assets*

Shares held directly by the Foundation concerning mutual consortia enterprises in other companies operating in the field of cooperation are entered in the assets in that they are not temporary and represent a lasting and strategic investment for the Foundation.

Shares in other companies have been entered at purchase cost value.

### *C. FLOATING ASSETS*

#### *C.I. Leftovers*

Amounts of € 29.360 were recorded under the item "Stock of valuables" relating to a legacy received during 2017.

#### *C.II. Credits*

These have been entered at the presumed fulfilment value.

#### *C.III. Financial activities*

These are entered at purchase price value.

#### *C.IV. Liquidity*

These are considered at nominal value

### *D. ACCRUALS*

Positive accruals refer to costs, which are common to two or more accounting years, the size of which is determined by the pertinence principal.

For long-term accruals, the conditions that led to their original booking were verified, adopting the appropriate changes where necessary.

## **LIABILITIES**

### *B. RISKS AND CHARGES FUNDS*

Risks and charges funds are made up of conservative provisions made for possible debts towards donors for reports which have still to be approved.

### *C. SEVERANCE PAYMENT FUND*

This represents the actual debt toward employees at the closing date. This debt, which has been calculated according to current law and for all current contracts, has been entered net of any advances given.

### *D. DEBTS*

These are valued at nominal value.

### *E. NEGATIVE ACCRUALS*

Negative accruals refer to revenues, which are common to two or more accounting years, the size of which is determined by the pertinence principal.

Negative accruals are partly formed by proceeds received during the closing year but pertaining to projects, which have not ended their activities by the end of the year or whose process of defining the outcome is still ongoing.

### *GUARANTEES AND COMMITMENTS RISKS*

Guarantees and commitments are shown in the interim accounts at contractual value.

- Guarantees refer to stand-by letters of credit issued towards third parties.

- Commitments refer to obligations deriving from contracts, which have been signed but have not yet been carried out.
- Risks for which there is a probable debt have been outlined in Mission Report and accounted for in the risks-and-charges funds. Risks for which there is a possible debt have been outlined in the Mission Report, without any entry in the risks-and-charges fund, according to accounting practice.

#### *CRITERIA FOR THE CONVERSION OF VALUES EXPRESSED IN FOREIGN CURRENCY*

Credits and debts originally expressed in foreign currency have been entered using the exchange rates published by the European Union for the month of December 2025. Foreign currency holdings, in Italy and at foreign offices, are valued according to the year-end exchange rate published by the Bank of Italy.

### **FINANCIAL STATEMENT**

#### *Costs and revenues*

There are entered according to principals of prudence and pertinence.

The balance sheet shows a decrease of approximately EUR 16 million in general revenue compared with the previous year, due both to a reduction in the volume of activities and to the time dynamics of expenditure on projects.

The overall quantity of projects is decreasing and, as things stand, forecasts for 2026 suggest that revenue could be around EUR 60 million.

#### ***Point 4) Assets variations***

These have been entered at purchase price and refer to the value net of any depreciations carried out during previous years, where these have been entered in their specific items.

#### *BI) Intangible assets*

Following are the variations of intangible assets during the year:

|                             | <b>31/12/2024</b> | <b>Increase</b> | <b>Depreciation</b> | <b>31/12/2025</b> |

The Extraordinary maintenance costs refer to the partial adjustment of the roof of the Milan headquarters.

The extraordinary expenses of Cascina relate to interventions for a total of € 172,973.04 incurred in previous years, for which depreciation will cease in 2025.

The feasibility studies include the costs incurred for missions and consultancy for projects that are or will be presented to various financing bodies, for the opening of new countries/sectors of intervention and for strengthening of strategic positioning. They thus refer to advances which will be charged to projects once these have been approved; in case of non-approval of the project, non-opening new country/sector, the feasibility study will be included in the year cost.

#### ***BII) Tangible assets***

Movements of tangible fixed assets related to the Milan office, gross of related depreciation provisions, were as follows:

|                             | 31/12/2024       | Increases     | Depreciation | Variation | 31/12/2025       |

| Chad         | 2.287          |                                 |                                 |                    |          |           | 2.287          |
| <b>Total</b> | <b>591.724</b> | <b>83.795</b>                   | <b>34.939</b>                   | <b>118.734</b>     | <b>-</b> | <b>-</b>  | <b>710.458</b> |

During the year an inventory was carried out in each foreign office. The value assigned to each good is equal to the purchase price less the depreciations attributed to each project according to Coopi's internal procedures, in agreement with the procedures laid out by the various Donors.

**Point 5) Plant and enlargement costs, research and development costs, advertising costs**

There are no capitalised plant and enlargement, research and development, advertising costs

**Point 6) Credits and debts with a residual duration of over 5 years.**

On the 31/12/2025 there are no debts with a duration of over 5 years.

**Point 7) Accruals**

Following is the table regarding accrued assets:

| <b>Accruals</b> | <b>31/12/2024</b> | <b>31/12/2025</b> | <b>Variation</b> |
|-----------------|-------------------|-------------------|------------------|
| Accrued assets  | 69.779            | 7.855             | (-61.924)        |
| <b>Total</b>    | <b>69.779</b>     | <b>7.855</b>      | <b>(61.924)</b>  |

Following is the table regarding accrued liabilities:

| <b>Accrued costs</b>      | <b>31/12/2024</b> | <b>31/12/2025</b> | <b>Variation</b> |
|---------------------------|-------------------|-------------------|------------------|
| Accruals for labour costs | 245.071           | 228.020           | (-17.051)        |
| <b>Total</b>              | <b>245.071</b>    | <b>228.020</b>    | <b>(17.051)</b>  |

Following is a table of deferred revenues:

| <b>Deferred Revenues</b>       | <b>31/12/2024</b> | <b>31/12/2025</b> | <b>Variation</b> |
|--------------------------------|-------------------|-------------------|------------------|
| Deferred revenues              | 15.649            | 8.660             | (6.989)          |
| Deferred revenues for projects | 11.679.524        | 14.237.939        | 2.558.415        |

Project deferred income refers to incomes received during the financial year and intended for projects not yet completed and accounted for. If the advances received during the financial year exceed the costs

incurred, a deferral is made for each project equal to the balance between incomes received and costs incurred; this has no effect on the Financial Statement and net assets.

#### **Point 8) Capital and net assets structure**

Net assets are as follows:

|                                    | 31/12/2024       | Increase       | Decrease            | 31/12/2025       | Variation        | Constraints |
|------------------------------------|------------------|----------------|---------------------|------------------|------------------|-------------|
| I) Common fund Foundation          | 70.000           |                |                     | 70.000           | 0                | yes         |
| VI) Statutory reserves             | 0                |                |                     | 0                | 0                |             |

| <b>Total</b>                       | <b>2.156.082</b> | <b>186.600</b> | <b>(-1.033.266)</b> | <b>1.309.417</b> | <b>(846.666)</b> |             |

The net assets of the Foundation consist of the Common Fund, which includes the initial allocation of 70.000 euro. The net assets included 90.457 euro for two properties located respectively in CAR and in Paraguay.

The project funds reserve includes the Foundation's available funds, which are allocated to projects on an institutional basis but without a contractual commitment. The portion of the "fund for country projects" was used, in the amount of € 872.375, on projects, to finance increased expenses and activities, to offset the negative effect of exchange rate differences on the projects themselves, and also to reclassify the first emergency fund reserve for € 143.698 and the reversal of the previous year's surplus of € 17.192.

#### **Point 8 bis) Variation of other voices in the asset and liabilities accounts**

##### **FLOATING ASSETS**

##### **I) Leftovers**

As already mentioned, values of € 29.360 have been recorded in the item "Stock of valuables" relating to a bequest received during 2017. The value is given by an expert report and reported in great detail in notarial and banking documents. The contents have been deposited in a safe deposit box.

##### **II) Credits**

##### **Credits towards donors**

| <b>Total</b>                   | <b>5.267.945</b> | <b>511.755</b> | <b>(156.190)</b> |

For those projects that, as at 31.12.2025, had received less advance payments than the expenses incurred, a revenue for "expenses to be reimbursed" was entered; the related receivable was included in item C II "Credits from others" of the Assets and Liabilities.

**III) Financial Assets**

Financial assets correspond to 820 shares of Banca Etica.

In 2022, the Foundation also established Scuola di Cooperazione Internazionale Srl Impresa Sociale - based in Milan, via Francesco De Lemene, 50 - which aims to provide training courses in the field of international cooperation. The value of the shareholding is € 25.000, the company's economic result at the end of 2025 was a profit of € 1.859, the assets are € 51.829 and the net assets are € 42.631.

**IV) Liquidity**

Bank deposits include interest accrued at the end of the financial year.

Foreign currency holdings, in Italy and at foreign offices, are valued according to the year-end exchange rate published by the Bank of Italy.

"Cash and cash equivalents" include national currencies, stamp-impressed paper, stamps.

| Description          | 31/12/2024        | 31/12/2025        | Variation      |

| * 5 per mille fund                   | 45.985            | 20.335            | (-25.651)           |
| * other                              | 1.567.083         | 1.850.543         | 283.460             |
| <b>Total</b>                         | <b>11.858.649</b> | <b>8.840.739</b>  | <b>(-3.017.910)</b> |

Debts towards banks are made up exclusively of current accounts with utilization of anticipated funds from banks on contracts.

Debts towards projects are made by the invoices to be received from suppliers.

Other debts are mainly related to debts of foreign countries and, therefore, the decrease over the previous year is also attributable to this case.

**Point 9) Funds received for specific purposes**

There are no funds received for specific purposes.

**Point 10) Conditional Liberal Donations**

There were no conditional donations.

**Point 11) Revenues by activity and geographical area net of extraordinary and financial income and expenses.**

Gross revenues in 2025 are € 66.280.775 and gross costs € 66.255.013.

The items are broken down in the following table, as the Foundation operates in different territorial areas and with different types of intervention.

The item "other" includes all the activities in Italy while the item "foreign offices" relates to coordination.

| <b>Geographical area</b>        | <b>Revenues</b>   |
|---------------------------------|-------------------|
| Central Africa                  | 19.171.195        |
| North Africa                    | 251.702           |
| West Africa                     | 18.882.964        |
| East and Southern Africa        | 10.306.251        |
| Latin America and The Caribbean | 8.112.856         |
| Middle East                     | 7.352.308         |
| Italy                           | 1.234.248         |
| <b>Total</b>                    | <b>65.311.524</b> |

| <b>Costs by type</b> | <b>Costs</b>      |
|----------------------|-------------------|
| emergency            | 49.511.931        |
| development          | 12.493.522        |
| foreign offices      | 1.335.267         |
| other                | 1.221.944         |
| <b>Total</b>         | <b>64.562.664</b> |

**Point11 bis) Interests and other financial costs**

Following is a table with the current year's financial revenues and costs:

|                                            | <b>2024</b>         | <b>2025</b>         | <b>Variation</b>    |
|--------------------------------------------|---------------------|---------------------|---------------------|
| Positive interests on bank and post office | 37.062              | 15.494              | (-21.567)           |
| Positive exchange rate difference          | 1.953.482           | 605.862             | (-1.347.621)        |
|                                            | <b>1.990.544</b>    | <b>621.356</b>      | <b>(-1.369.188)</b> |
| Negative interests on bank accounts        | (-587.388)          | (-592.121)          | (-4.733)            |
| Negative exchange rate difference          | (-1.339.325)        | (-1.182.571)        | 156.753             |
|                                            | <b>(-1.926.712)</b> | <b>(-1.774.692)</b> | <b>152.020</b>      |
| <b>Total financial situation</b>           | <b>63.832</b>       | <b>(-1.153.337)</b> | <b>(-1.217.168)</b> |

**Point 11 ter) extraordinary revenues and costs**

Extraordinary income and expenses in the Financial Statement have been reclassified in the ordinary part by nature. In particular:

| <b>Name</b>                          | <b>Year 2024</b>    | <b>Year 2025</b>    |
|--------------------------------------|---------------------|---------------------|
| <b>CONTINGENT LIABILITIES</b>        | <b>€ 411.539,59</b> | <b>€ 260.078,29</b> |
| Reclassified under items:            |                     |                     |
| LOSSES ON RECEIVABLES                | € 111.440,08        | € 56.573,75         |
| CHARGES                              | € 4.409,85          | € 26.155,47         |
| DIRECT LOCAL COSTS FOR OTHER CHARGES | € 295.689,66        | € 177.349,07        |
| <b>CONTINGENT ASSETS</b>             | <b>€ 396.930,36</b> | <b>€ 247.895,73</b> |
| Reclassified under items:            |                     |                     |
| REVENUES FROM FOREIGN OFFICES        | € 386.193,14        | € 258.512,29        |
| MISCELLANEOUS INCOME                 | € 10.737,22         | € 89.383,44         |

**Point 12) Liberal donations**

The vast majority of donations received by the Foundation during the current financial year were in the form

of bank transfers from private individuals.

### **Point 13) Employees**

The movement of employees was as follows:

|                               |           |
|-------------------------------|-----------|
| Employees as at 31.12.2024    | 47        |
| Hired                         | 6         |
| Dismissed                     | (15)      |
| <b>Total as at 31/12/2025</b> | <b>38</b> |

### *Severance payment fund*

It is calculated on the basis of the amounts accrued at the end of the financial year and fully covers the company's commitment to all employees in force at 31.12.2025, in accordance with legal and contractual provisions.

Following is the analysis:

| <b>31/12/2024</b> | <b>Allowance for the year</b> | <b>Use for discharges and taxes</b> | <b>31/12/2025</b> |
|-------------------|-------------------------------|-------------------------------------|-------------------|
| 743.140           | 124.644                       | (-171.390)                          | 696.394           |

### **OVERALL PERSONNEL DATA**

#### **Personnel working in Italy as at 31/12/2025**

|               | <b>As at 31/12/2024</b> | <b>As at 31/12/2025</b> | <b>Variation</b> |
|---------------|-------------------------|-------------------------|------------------|
| Employees     | 47                      | 38                      | -9               |
| Collaborators | 15                      | 10                      | -5               |
| <b>TOTAL</b>  | <b>62</b>               | <b>48</b>               | <b>-14</b>       |

During 2025, the staff in Italy was composed by 76 operators, of whom 53 were employees, 12 collaborators and 11 internship, 48 women and 28 men.

The contract applied to employees is the "Contratto Collettivo Nazionale del Commercio" (National Commercial Collective Contract).

Collaboration relationships refer to the Framework Agreement of 04/12/2023.

#### **Expatriates as at 31/12/2025**

**Point 14) Payment of Administrators and Statutory auditors**

No payments have been made to Administrators or to Auditors. To the Society BDO Italy SpA has been made a fee of 15.797,90 euro (plus expenses and VAT) for the balance audit for a total of 19.637,44 euro.

**Point 15) Financing for a specific purpose**

The Foundation does not have financing for a specific business.

**Point 16) Operazioni con parti correlate**

Transactions with related parties

**Point 17) Proposal for allocation of profit for the year**

On the basis of the above, it is proposed to allocate the profit for the year, amounting to a total of euro 25.762 as follows:

- Entirely to the Project Fund reserve

**ILLUSTRATION OF THE ECONOMIC AND FINANCIAL PERFORMANCE OF THE ORGANISATION AND THE WAY IN WHICH IT PURSUES ITS STATUTORY OBJECTIVES**

***Point 18) Situation of the Foundation and its Management Performance***

The situation of COOPI is basically that of a solid Foundation, with a significant average increase in activities.

A comparison of the 2025 budget with the 2024 budget shows a decrease in assets from € 82.39 million in 2024 to € 66.28 million in 2025, a decrease of about 20%.

In the same period, net assets decreased from € 2.16 million to € 1.31 million. This decrease is attributable to the utilisation of funds specifically set aside to finance increased assets on projects and to cope with the negative effect of exchange rates on projects.

Most of COOPI's activities take place in Africa, but interventions in Latin America and the Middle East are also significant.

In 2025, COOPI was present in 34 countries in Africa, the Middle East, Latin America and the Caribbean and Italy. In 28 of these countries, it conducted a total of 194 projects of which 177 were emergency and development projects and 17 Child Sponsorship Programs. A total of 7.521.203 beneficiaries were reached.

***Point 19) Foreseeable development of operations***

The forecast for the coming years is for a reduction in the volume of activities.

Due to the nature of the work, which is essentially carried out entirely through the management of contracts as a result of participation in calls for tenders from institutional donors, it is not easy to make precise forecasts. However, the shift in the direction of US international cooperation policy, which took place at the beginning of 2025, continues to influence the international humanitarian system.

On 29 December 2025, the US administration announced the allocation of \$2 billion to OCHA for emergency projects. In May 2026, a second allocation of \$1.8 billion was made, again to OCHA, and further international cooperation initiatives were confirmed. Although the total figure of \$3.8 billion falls far short of what the US had previously allocated, this relief breathes new life into humanitarian assistance in some of the major humanitarian crises, enabling NGOs and, above all, UN agencies to resume certain life-saving emergency activities that would otherwise have been suspended.

Against a global backdrop of escalating crises – not least the war in Iran and the Ebola outbreak in the Congo – 2026 will in fact also be characterised by the redefinition of the humanitarian system's architecture and by the debate on UN reform.

By capitalising on the experience of 2025 and the results of the measures taken since the start of last year to mitigate the impact of the crisis in the humanitarian system, COOPI has positioned itself ideally to enhance its resilience and seize new opportunities.

The new administration announced and then implemented a process to revise foreign assistance funding. As of the end of January 2025, almost all funded projects were cancelled, the USAID agency was closed down and a downsizing was also initiated for the State Department.

This event generated a chain reaction from the humanitarian aid sector, where US funds made up approximately 40 per cent of the total global budget. UNICEF, UNHCR, WFP and other UN agencies had to close many assistance programmes, lay off staff and start a downsizing process. At the same time, many international NGOs had to make cuts, while many local NGOs had to stop their activities. By March 2025, an estimated 79 million people were left without any assistance.

In light of this picture, COOPI has initiated a series of measures to address what has been happening since January 2025, building on what has already been initiated to deal with the first cuts seen in 2024 by some

donors.

***Point 20) Ways of pursuing statutory purposes***

COOPI has almost 60 years of history behind it, during which the organization has grown steadily and structured itself to meet the challenges of ever-changing international cooperation.

Since 2010, COOPI has been a Participatory Foundation whose purpose is 'to contribute to the harmonious and integrated development of the communities with which it cooperates, in the awareness that through the meeting and collaboration between peoples the ideals of equality and justice are pursued in order to achieve a better world balance' (Statute, Art. 2.01).

Over the last fifteen years, COOPI has undergone a major change. The adoption of a decentralized organizational model has led it to set up 5 Regional Coordinations: West Africa, Central Africa, East and Southern Africa, Middle East, Latin America and the Caribbean. The Coordinations play a key role by bringing decision-making closer to the ground, accrediting COOPI locally and involving project recipients more closely in decision-making. For the headquarters, on the other hand, the role of general guidance, support and control of the overall work is increasingly marked.

Strong organizational supervision in the areas of intervention, the application of an integrated multi-sectoral approach in field activities and a high degree of professionalization are the distinctive features of COOPI's way of working and cooperating.

***Point 21) Other activities***

COOPI does not carry out other activities.

***Point 22) Imputed costs and revenues***

There are no imputed costs and revenues during the year; COOPI does not use the contribution of volunteers.

***Point 23) Difference in pay between employees***

It is acknowledged that the ratio of the maximum wage to the minimum wage is less than 8, as stipulated in Article 16 Legislative Decree 117/2017.

***Point 24) Fundraising***

COOPI's fundraising is essentially aimed at individuals and is directed towards general support of institutional activities and child sponsorship activities, details of which are given below:

| CHILD SPONSORSHIP PROGRAMS | 31/12/2024 | 31/12/2025 | Variation |
|----------------------------|------------|------------|-----------|
| Revenues                   | 356.780    | 347.242    | (-9.539)  |
| Costs                      | (35.370)   | (10.326)   | 25.044    |
| Transfer to projects       | 267.585    | 260.431    | (-7.154)  |

This relates to revenues and costs incurred for the promotion of child sponsorship programs campaigns. The transfers made to the final beneficiaries are highlighted separately.

In 2025, the Foundation carried out 3 occasional fundraising campaigns: Gaza Emergency, Sudan Emergency and Christmas Fundraising Campaign. The statements are attached to this report.

**Point 25) Use of 5x1000 funds**

By 26/12/2025, funds amounting to € 59.565,59 allocated for the "5 per mille" fund for the year 2022 and received on 27/12/2024 were used for the project 'Fighting Poverty in Italy'.

**STATEMENT OF COSTS INCURRED FOR THE 5X1000 FUND**

|                                                                            |                  |

| <b>4.4. Disbursement to individuals</b>                                    |                  |
| <b>4.5. Other costs for general interest activities</b>                    | 14.318,42        |
| <b>5. Allocation</b>                                                       |                  |
| <b>TOTAL COSTS</b>                                                         | <b>59.565,59</b> |

**Point 26) Commitments not detailed in the Assets and Liabilities accounts**

The Foundation has received some bank and insurance guarantees from third parties: at the end of the financial year there were 26. These guarantees are in place respectively with Banca Etica (1) and SISCOS (25) to guarantee advances paid or contractual obligations to the donors.

The total guaranteed as of 31/12/2025 amounts to € 5.350.421 compared to € 3.932.023 for the previous year

The considerations and values contained in this Mission Report are in accordance with the accounting records and accurately reflect the administrative facts as they occurred.
