KSB ETANORM 150-125-400 centrifugal pump.

Technical Specifications Breakdown

* Manufacturer: KSB (Klein Schanzlin & Becker AG)

* Pump Type / Model: ETANORM 150-125-400

    • 150: Nominal diameter of the suction nozzle (mm)

    • 125: Nominal diameter of the discharge nozzle (mm)

    • 400: Nominal diameter of the impeller (mm)

* Product Number (Prod. No): 9972230295/100/05

* Serial Number (Nr.): 6-104-569027635

* Flow Rate (Q): 187 m^3/h (Cubic meters per hour)

* Head (H): 47 m (Meters of total dynamic head pressure)

* Rotational Speed (n): 2900 min^{-1} (RPM / Revolutions per minute)

* Power Requirement (P): 37 kW (Kilowatts required at the pump shaft)

Would you like me to find the performance curves, operating manual, or dimension drawings specifically for this ETANORM 150-125-400 pump model?
